THE SOIL SPECIALIST

Protects the soil.
Improves yield.
More hectare/hour.
Less Litres/hectare.

**Stepless goes Electrical....
TRY IT TODAY!**

ELECTRIFICATION MAKES THE DIFFERENCE

The NEW eAutoPowr™ transmission replaces the hydraulic pump and motor found in the AutoPowr™ transmission with two electric motors/generators. One generator is directly connected to the diesel engine and powers the second motor/generator which precision-controls the tractor speed. One electrical and four mechanical gears guarantee the most efficient power transfer to the wheels. Maintaining the trusted efficiency and ride comfort of AutoPowr™, this design adds a new level of robustness and reliability to produce the best stepless transmission John Deere has ever built!
